PROFESSIONAL SUMMARY

Results-driven Front-End Developer with 2.5 years of experience specializing in building responsive, user-centric web and mobile applications. Proven track record in translating Figma designs into scalable implementations, optimizing performance, and driving user engagement. Demonstrated expertise in React ecosystem, having developed platforms serving 50,000+ users while maintaining high performance and accessibility standards.

TECHNICAL SKILLS

- **Frontend Development:** React.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **State Management:** Redux Toolkit, Apollo GraphQL, RESTful APIs, Client-side Caching
- **UI/UX:** Material-UI, Tailwind CSS, Flowbit, Framer Motion, Responsive Design
- **Testing & Tools:** Jest, Mocha, React Testing Library, Webpack, ESLint, Vite, Postman, Insomnia
- **Backend & Database:** Node.js, Express.js, MongoDB, Firebase Cloud Store
- **Authentication:** OAuth 2.0, JWT, Firebase Auth
- **Version Control & CI/CD:** Git, GitHub
- **Design & Project Management:** Figma, Trello

PROFESSIONAL EXPERIENCE

Scontinent Technologies Pvt Ltd | *Senior Front-End Developer*

Feb 2023 | Present

SAMAI Platform

- Architected and developed a comprehensive mock test platform serving 50,000+ active students
- Implemented Redux for state management, achieving 40% faster load times through optimized data flow
- Designed and integrated an analytics dashboard using E-Charts for detailed performance tracking
- Built responsive educational news section with gesture-based interactions
- Developed cross-platform functionality using React Native

Sconti Admin Dashboard

- Led development of Product Data Management System with role-based access
- Built real-time Review Dashboard with database synchronization
- Engineered multi-format question generation system supporting text, images, and equations
- Implemented Google Sheets API integration, reducing data handling time by 85%
- Developed automated workflow systems using React.js, Material-UI, and Firebase

Corporate Website Development

- Spearheaded development of official corporate website
- Enhanced SEO performance using React Helmet and Google Tag Manager
- Integrated YouTube API and E-charts for improved user engagement
- Implemented secure authentication and optimized hosting services

Sconti Social Platform

- Developed social networking platform connecting students with professionals
- Built responsive UI components using Material-UI and React.js
- Implemented Apollo Client for efficient state management
- Created reusable component library, reducing development time by 25%
- Engineered features including profile management, content sharing, and analytics dashboard

NOTABLE PROJECTS

SamAI Platform (Web & Mobile)

- Built comprehensive mock test platform with AI-driven assessment
- Implemented secure payment processing and real-time analytics
- Scaled infrastructure to support 50,000+ concurrent users with 99.9% uptime

Namma Mart (Quick Commerce)

- Developed full-stack e-commerce solution with real-time inventory management
- Achieved UI/UX standards matching industry leaders
- Implemented secure payment processing and order tracking

Blog Management System

- Created full-stack application using MERN stack
- Implemented features for content creation, management, and publishing
- Integrated authentication and authorization systems

EDUCATION

Master of Computer Applications | *Bangalore Institute of Technology, VTU*

2019 | 2022

CGPA: 8.5

Bachelor of Computer Applications | *The National Degree College, Bangalore University*

2015 | 2018

ACHIEVEMENTS & CERTIFICATIONS

- Awarded "Employee of the Month" twice for technical leadership and innovation
- Conducted technical workshops on React.js and Modern JavaScript at engineering colleges
- **Certifications:**
 - Responsive Web Design (FreeCodeCamp, 2023)
 - React.js Essential Training (LinkedIn Learning, 2023)
 - Learning Redux Toolkit (LinkedIn Learning, 2023)
