👤 Professional Summary

Front-End Developer with over 2 years of experience in the React ecosystem, specializing in high-performance, user-centric web and mobile applications. Skilled in delivering scalable, SEO-optimized solutions that boost user engagement by 20-35%, including a mock test platform serving 50,000+ students and an enterprise-level admin dashboard. Proficient in optimizing load times and implementing secure, scalable authentication systems. Strong collaborator in agile environments, with a focus on aligning technical solutions to drive business growth.

⚒ Technical Skills

- **Languages:** JavaScript, HTML5, CSS3
- **Front-End:** React.js, Redux Toolkit, React Native
- **Database:** RDBMS
- **Backend:** Node.js, Firebase, Apollo GraphQL
- **UI/UX:** Material-UI, Tailwind CSS, Framer
- **Version Control:** Git, GitHub
- **Project Management:** Agile, Scrum

💼 Professional Experience

Scontinent Technologies Pvt Ltd — Jul 2023 – Present
Front-End Developer

💻 SAMAI

- Architected and spearheaded a comprehensive mock test platform using React and React Native, serving 50,000+ active students in taking competitive exams
- Engineered Redux for state management and established REST APIs for seamless data flow, resulting in 40% faster load times
- Built an advanced analytics dashboard using Chart.js, providing detailed performance metrics and boosting student engagement by 20%
- Designed real-time performance tracking and history logging features, enabling students to monitor their progress effectively
- Launched a responsive educational news section that increased platform engagement by 35%

Sconti Admin Dashboard

- Architected a comprehensive Quiz Management System with role-based access control
- Established a Review Dashboard featuring real-time database synchronization
- Constructed a sophisticated question generation system supporting multiple formats (text, images, equations)
- Devised an efficient review workflow that reduced content validation time by 35%
- Utilized React.js, Material-UI, Axios, and Firebase to craft a robust and scalable solution

🌐 Scontinent Corporate Website

- Built the company's official website using React.js and Firebase
- Engineered secure authentication systems and optimized hosting services
- Incorporated custom YouTube API functionality for enhanced media content delivery
- Crafted interactive data visualizations using E-charts library
- Enhanced SEO performance using React Helmet and Google Tag Manager, resulting in improved search rankings

Scontinent Technologies Pvt Ltd   **Mar 2022 – Sep 2022**
Front-End Developer Trainee

👥 Sconti Social Platform

- Spearheaded the development of Sconti, a social networking platform connecting students with industry professionals

- Designed core features using React.js and Apollo Client for efficient state management

- Built responsive UI components using Material-UI, ensuring cross-platform compatibility

- Established Firebase integration for secure authentication and real-time data updates

- Structured a reusable components library, reducing development time by 25%

- Orchestrated advanced features including:

  - Professional profile creation and management system
  - Content sharing and interaction features
  - Advanced search and filtering capabilities
  - Analytics dashboard for user engagement metrics

🎓 Education

Master of Computer Applications   **2019 – 2022**
Bangalore Institute of Technology, VTU   *CGPA: 8.5*
Bachelor of Computer Applications   **2015 – 2018**
The National Degree College, Bangalore University

✳️ Certifications

- **Responsive Web Design** – FreeCodeCamp (2023)

- **React.js Essential Training** – LinkedIn Learning (2023)

- **Learning Redux Toolkit** – LinkedIn Learning (2023)
